

Summer Make and Take Lab

Open to Title I Families

The Family Resource Center is excited to announce the opening of the Summer Make and Take Lab! Each week on Tuesdays and Thursdays, June 3rd through July 25th, families are able to create Language Arts, Math, and Science projects together that can be used at home to encourage summer learning strategies! Each project is aligned to the Florida State Standards and adaptable for grades K-8. Check social media weekly for the announcement of project offerings and days! We look forward to your family visiting the Family Resource Center!
